

Loss of Control Presentation - 'Stabilized Approaches and Go Arounds'

The air carrier industry has embraced stabilized approach concepts as a means to ensure safe operations during critical phases of flight.

General aviation pilots can also increase the safety of their approach and landing operations by adhering to stabilized approach criteria.

Directions: This event will be held in the main terminal area, in the outside tent, in conjunction with the Wings and Pistons Event at Wadsworth Airport. For detailed driving directions, please use internet software such as GoogleMaps, MapQuest, Rand McNally or similar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
